

Aero-Cel Padding

New technology in padding options gives you four inches of more resilient support with a softness that conforms to the body's curves. Offering the most relaxing and nurturing environment possible, it's an investment that will return many years of "ahhhhhhs." *weighs 2-3 pounds more than semi-firm*

Plush Padding

Our traditional three-inch multi-layer, super supportive multi-density system for optimal comfort and durability. Its perfect balance of softness and support make this padding ideal for bringing relaxation to clients everywhere. *weighs 2-3 pounds more than semi-firm*

Semi-Firm Padding

Two and a quarter inch multi-layer, multi-density system for firmer support and comfort with easier portability. Designed for the best balance of lighter weight and comfortable support. We use semi-firm on our portable tables to determine their published weights.

Breast Comfort Padding System

Soft transitions and generous proportions allow easy, dignified positioning for women of all sizes. Uniquely sophisticated, luxurious three-inch padding layers support all our natural contours and reduce pressure on sensitive breast tissue. Also acts as Glide Zones™ that provide the ultimate innovation in supine positioning for everyone. The soft padding allows you to reach far down your client's back with ease—hand and career-saving ergonomics.
